

*Time Well Spent*

Look here for technically challenging and diverse scopes of work

We are a General Contractor!

We dig deep into means and methods with high levels of coordination for a quality product. In 1947, Bill and O.P. Crowder founded Crowder Construction Company, headquartered in Charlotte, NC with offices in the southeast region. Through the years, Crowder Construction has expanded into a multi-division, top 400 ENR contractor specializing in the construction of water and wastewater treatment plants and other environmental utility projects. We self-perform other large heavy construction type projects (bridges, dams, heavy concrete), electrical, federal, landfill/digester gas-to-energy and solar. Please visit our website at [www.crowderusa.com](http://www.crowderusa.com) and follow links to Civil & Environmental Division and Heavy Civil Division. We are proud to hire candidates from your school and we look forward to speaking with you.

*We are training our future  
with permanent placement as the goal!*
